Risk factors

Annual accounts

Last accounts filed 28th February 2023

Negative Impact

Based on your latest publicly filed financial statements at Companies House.

Accounts filed on time

Good job! The company's accounts were filed at Companies House on time. Make sure you continue to file your accounts in a timely manner.

• Neutral

Regular accounts filing

Filing your annual company accounts in a regular pattern is sign of good behaviour in the eyes of Credit Reference Agencies like Experian, as it demonstrates consistency in your business activities.

• Neutral

Average asset base

An average asset base can be deemed as a foundation to support ongoing operations and growth initiatives, and can provide valuable collateral that lenders can use to mitigate their risks when extending credit. A large asset base can indicate that a company has reached a certain level of stability and maturity in its industry.

• Neutral

Poor liquidity for working capital

A small current asset base relative to company turnover suggests that the business has insufficient liquidity to support its day-to-day operations. This raises concerns about the company's ability to meet its short-term obligations without relying excessively on external financing.

• Negative

Balanced financial leverage

A balanced gearing ratio suggests that the company has relatively equal proportions of equity or assets relative to debt. A favourable gearing ratio indicates financial stability, as the company relies more on equity financing and has lower levels of debt relative to its assets.

• Neutral

Unaffected shareholders' funds

Shareholders' funds typically occur when the company generates profits or receives capital injection, which are retained and reinvested into the business. This indicates financial health in the business through growth and profitability.

The company has been established and operating for a significant number of years compared to other companies of a similar size. This suggests stability and expertise in your industry. • Neutral

Operating in a lower risk industry

The company is registered publicly and operating in what is considered to be a low risk sector of the economy. • Neutral

Directors' Commercial Experience

Neutral Impact

Publicly held information on your current board of directors and a review of their past/present business activities.

Above average number of directors

The number of appointed directors is considered to be above average compared to other companies of a similar age and size. A larger number of directors suggests healthy growth in the business, which may benefit from a diverse range of expertise and experience. • Neutral

Experienced board of directors

The average age of the company's board of directors is older compared to other companies of a similar size or age. This suggests that the business can benefit from a diverse range of expertise and experience. • Neutral

Payment performance

Negative Impact

How your company performs when making payments to suppliers and whether you are settling within or beyond terms.

Slower payments compared to industry average

The settlement of trade credit is on average slower compared to other companies of a similar age and size. • Negative
