### Risk factors

### Annual accounts

Last accounts filed 31st October 2024

Negative Impact

Based on your latest publicly filed financial statements at Companies House.

## Accounts filed on time

Good job! The company's accounts were filed at Companies House on time. Make sure you continue to file your accounts in a timely manner.

• Neutral

## Regular accounts filing

Filing your annual company accounts in a regular pattern is sign of good behaviour in the eyes of Credit Reference Agencies like Experian, as it demonstrates consistency in your business activities.

• Neutral

## Small asset base

An asset-light business can offer advantages in terms of flexibility and efficiency, but it may also expose a company to certain risks, such as reliance on external suppliers and a lack of collateral that can be leveraged by lenders to mitigate their risks when extending credit.

• Negative

## Adequate liquidity for working capital

A moderately equal current asset base relative to company turnover suggests that the business has adequate liquidity and working capital to support its day-to-day operations. Poor liquidity raises concerns about the company's ability to meet its short-term obligations without relying excessively on external financing.

• Neutral

## Balanced financial leverage

A balanced gearing ratio suggests that the company has relatively equal proportions of equity or assets relative to debt. A favourable gearing ratio indicates financial stability, as the company relies more on equity financing and has lower levels of debt relative to its assets.

• Neutral

## Unaffected shareholders' funds

Shareholders' funds typically occur when the company generates profits or receives capital injection, which are retained and reinvested into the business. This indicates financial health in the business through growth and profitability.
