Credit risk factors

Needs attention

The underlying criteria that credit bureaus use to calculate the credit score.

- Positive impact: 1
- Negative impact: 3
- Neutral impact: 9

Risk factors

Based on your latest publicly filed financial statements at Companies House.

Accounts filed on time

Good job! The company's accounts were filed at Companies House on time. Make sure you continue to file your accounts in a timely manner.

• Neutral

Irregular accounts filing

The filing pattern of your company accounts are irregular, or you have a small number of accounts filed compared to businesses of a similar size. Filing your company accounts in a regular pattern demonstrates consistency in your business activities.

• Negative

Inefficient use of invested capital

Low capital employed or a low return on capital, suggests that a company is not effectively utilising its invested capital to generate profits.

• Negative

Small asset base

An asset-light business can offer advantages in terms of flexibility and efficiency, but it may also expose a company to certain risks, such as reliance on external suppliers and a lack of collateral that can be leveraged by lenders to mitigate their risks when extending credit.
