Credit risk factors

Needs attention

The underlying criteria that credit bureaus use to calculate the credit score.

- Positive impact: 1
- Negative impact: 3
- Neutral impact: 7

Risk factors

Annual accounts

Last accounts filed 31st August 2024

Negative Impact

Based on your latest publicly filed financial statements at Companies House.

Accounts filed on time

Good job! The company's accounts were filed at Companies House on time. Make sure you continue to file your accounts in a timely manner.

• Neutral

Regular accounts filing

Filing your annual company accounts in a regular pattern is sign of good behaviour in the eyes of Credit Reference Agencies like Experian, as it demonstrates consistency in your business activities.

• Neutral

Deficit in profitability

The company is carrying a significant net loss or negative retained earnings, indicating financial challenges and potential issues with profitability in the business. Net losses can be concerning as they weaken the company's financial position and signal underlying issues that need to be addressed.

• Negative

Large asset base

A sizable asset base can indicate that a company has reached a certain level of stability and maturity in its industry. A solid asset base can be deemed as a foundation to support ongoing operations and growth initiatives, and can provide valuable collateral that lenders can use to mitigate their risks when extending credit.

• Positive

Poor liquidity for working capital

A small current asset base relative to company turnover suggests that the business has insufficient liquidity to support its day-to-day operations. This raises concerns about the company's ability to meet its short-term obligations without relying excessively on external financing.

• Negative

Balanced financial leverage

A balanced gearing ratio suggests that the company has relatively equal proportions of equity or assets relative to debt. A favourable gearing ratio indicates financial stability, as the company relies more on equity financing and has lower levels of debt relative to its assets.

• Neutral

Decline in shareholders' funds

A decrease in shareholders' funds typically occurs when the company incurs losses, which reduces the proportion of equity in the business. This indicates financial instability in the business through declining profits or capital reductions.

• Negative

Company information

Neutral Impact

Overview of your company's general information declared on your annual confirmation

statement.

Company filings up to date

Good job! Company and director details are all up to date at Companies House. The company Confirmation Statement was filed on time, and must be filed at least once every 12 months, even if there are no changes to report. • Neutral

Directors' Commercial Experience

Neutral Impact

Publicly held information on your current board of directors and a review of their past/present business activities.

Above average number of directors

The number of appointed directors is considered to be above average compared to other companies of a similar age and size. A larger number of directors suggests healthy growth in the business, which may benefit from a diverse range of expertise and experience. • Neutral

Legal notices

Neutral Impact

Overview of any derogatory notices registered against your company at county court or in gazettes.

No gazette notices recorded

No significant adverse gazette notices have been recorded against the company. Keep up the good work of settling credit on time and maintaining good relationships with partners. • Neutral

No County Court Judgements recorded

No county court judgements have been registered against the company. Keep up the good work of settling credit on time and maintaining good relationships with partners. • Neutral

Public Record

A quick overview of your company records which are registered publicly at Companies House.
